*Rand article from wiki

The name film originates from the fact that photographic film also called film stock has historically been the medium for recording and displaying motion pictures. Many other terms exist for an individual motion-picture, including picture, picture show, moving picture, photoplay, and flick. The most common term in the United States is movie, while in Europe film is preferred. Common terms for the field in general include the big screen, the silver screen, the movies, and cinema the last of these is commonly used, as an overarching term, in scholarly texts and critical essays. In early years, the word sheet was sometimes used instead of screen. Film in general is not a good term to refer to a long standard commercial video production since it’s ambiguous in general and therefore requires context for correct interpretation.

Other major films have postponed releases in certain countries. The Pixar film Onward, released on the opening March weekend, was not opened in the areas most affected by the coronavirus outbreak while cinemas were closed in China, it also chose not to open in South Korea, Italy or Japan.90 Other March 2020 releases A Quiet Place Part II and Mulan postponed their releases in affected areas, too. This prompted worry that, should March film openings underperform, blockbusters set for release in May specifically DisneyMarvels Black Widow and Universals F9 would move their dates later in the calendar.187 Mulan not opening in China, where it aimed to make most of its money, was particularly concerning,91 especially with the possibility that pirate copies will appear and prevent Chinese moviegoers from going to see it in cinemas when it is released.9 Comparatively, A Quiet Place Part II had not anticipated a large Chinese draw, as the box office for the first film in the country was only 10% of its total.7

The lack of theatrical releases from Hollywood studios resulted in an anime film—Demon Slayer: Mugen Train—becoming the first-ever non-Hollywood film to top the annual worldwide box office. The film benefited from Japans relative control of the pandemic at the

time of its release, the popularity of the franchise, and reduced competition from international films.120121 With both Los Angeles and New York City having allowed cinemas to reopen by March 2021, it was expected that film distributors would be more confident in releasing higher-profile films.122123 During that month, Disney announced that Black Widow would open in theaters on July 9, 2021 and would also be available on Disney+ the same day with Premier Access, following the same release strategy that was used for one of the companys other films, Raya and the Last Dragon.124 Two more of Disneys films, Cruella and Jungle Cruise, were also given this hybrid release.124125
